Serving as a Claremont Councillor for the past 8 years has been a very rewarding experience. As part of a highly functional council with fiscal restraint and great community spirit, I have been part of a team that has given ratepayers: Minimal rate rises, Lake Claremont parkland funding, improved drainage works, tree planting, playground renewal, underground power, new lights, footpath and road renewals, new McKenzie sports Pavillion, a new Museum and toilets, large dog offlead area, reduction in use of plastic and pesticides, community art initiatives, and ongoing refurbishment of the Aquatic Centre.

Formerly a medical negligence lawyer, I have enjoyed working as a Claremont Councillor and combining it with managing a charity for underprivileged children. I also Chair an ethics committee for the Harry Perkins Institute and the Lake Claremont Advisory Committee.

I value our parks, trees and sporting facilities and the contribution they make to community health and well being. Thanks.
