Objects and Reasons for Differential Rates for 2023–2024

The image is a vertical composition. The top half features a large, dense tree with vibrant blue leaves against a clear blue sky. The bottom half shows a sunlit path lined with mature trees, with a stone wall and gateposts on the left. A white rectangular box is superimposed on the left side of the image, containing text.

ACKNOWLEDGEMENT OF PEOPLE AND COUNTRY

The Town of Claremont acknowledges the Traditional Custodians of the land and waterways of the Claremont and Swanbourne area. We respect the significance of their connection to the sacred sites, the Derbal Yerrigan and Galbamaanup wetland. We honour the ancestors of our community Elders who survived and cared for this Country.

Introduction

At its Ordinary Meeting on Tuesday 30 May, Council approved the advertising of differential rates for the 2023–2024 budget, noting that there would be a General rate and a Commercial rate.

In accordance with Section 6.36 of the Local Government Act 1995, the Town is required advertise its Objects and Reasons for implementing differential rates.

Background

The Gross Rental Values (GRV's) for all properties across the State are updated every three years. The 2023 valuations provided by Landgate are effective from 1 July 2023 and based on data collected in 2020–2021.

The Town currently has one General rate for all property types including residential, commercial, industrial, and vacant land. Introducing differential rate categories does allow the local government greater flexibility in adjusting the impacts of GRV changes across property types and assists in generating the required rate revenue in a fair and equitable way.

The outcome of the Landgate valuation of the properties within the Town was an increase across all property types of 14.26% with a higher growth experienced in residential properties of 20.44% versus commercial properties being 0.8%.

Objects and Reasons

The purpose of imposing a GRV differential rating for residential and commercial is to obtain a fair and equitable form of revenue raising from the categories of properties in the Town.

Under the Local Government Act 1995, Section 6.33 Differential General Rates, a local government may impose differential general rates according to any, or a combination, of the following characteristics:

- a. the purpose for which the land is zoned, whether or not under a local planning scheme or improvement scheme in force under the Planning and Development Act 2005; or
- b. a purpose for which the land is held or used as determined by the local government; or
- c. whether or not the land is vacant land; or
- d. any other characteristic or combination of characteristics prescribed.

Residential

The rate in the dollar and minimum rate have been set on the basis that ratepayers make a reasonable contribution to the cost of all of the local government services and facilities.

Commercial

The Claremont Town Centre and Stirling Highway corridor is the main location for commercial and industrial development and has large volumes of traffic and a higher impact on the Town's resources including Health, Planning, Civil Maintenance, and Building works. The rate in the dollar and minimum rate have been set to provide for a reasonable contribution towards these costs.
