

TOWN *of* CLAREMONT

# ADOPT A TREE PROGRAM

**A new initiative, the Town's Adopt a Tree program is a special way to help support our restoration efforts at the Lake, and for the health of the planet.**

When you adopt a tree, you can also choose to purchase a plaque with your own wording.

The Adopt a Tree program aims to help restore the Town of Claremont's canopy as the Polyphagous shot hole borer continues to wreak havoc on Perth's trees. You can choose the size of tree from a selection of species which are more resilient to the borer.

By participating in this program, our community can unite to restore and enhance our tree canopy. Together, we can plant new trees and nurture their growth, revitalizing our environment and preserving the beauty that defines Claremont.
